POLICY FOR ADMINISTERING EMERGENCY TREATMENT TO CHILDREN WITH SEVERE ALLERGIES

Children with severe allergies, such as allergies to bee stings, peanut products, etc., may be at risk of a serious allergic reaction in a child care setting due to contact with or ingestion of the allergen. Contact with these allergens may result in anaphylaxis, a severe allergic reaction with symptoms that may include swelling of the face and lips, hives, vomiting, diarrhea, shortness of breath, and difficulty breathing. Ultimately, anaphylaxis may cause a fall in blood pressure, unconsciousness, and death. La Petite Academy, Inc. ("La Petite") is concerned for the health and safety of all children in our care. Accordingly, when an enrolling/enrolled child has a severe, life-threatening allergy, the following is required:

PARENT(S)/GUARDIAN(S) MUST COMPLETE AND/OR PROVIDE THE FOLLOWING:

1. A signed copy of La Petite's "**Authorization For Emergency Care For Children With Severe Allergies**" (Authorization Form). This form must be filled out completely by the child's physician and parent(s)/guardian(s), and must be updated every six months, or more frequently, as needed. The Authorization Form is designed to provide La Petite with the information necessary to ensure proper preventative measures and an effective response to a serious allergic reaction. In addition, the parent(s)/guardian(s) shall provide a copy of any other physician's orders and procedural guidelines relating to the prevention and treatment of the child's allergy.
2. A signed copy of La Petite's "**Release and Waiver of Liability for Administering Emergency Treatment To Children With Severe Allergies**" (Waiver). The Waiver releases La Petite and its employees from liability for administering treatment to children with severe allergies (including the administration of epinephrine) and taking any other necessary actions set forth in the Authorization Form, provided that La Petite exercises reasonable care in taking such actions.
*Note: The Managing Director is responsible for: (1) collecting these documents after they have been properly executed, (2) placing the original of each form in the child's La Petite file and (3) sending a copy to the inclusion team.
3. All equipment and medications needed by La Petite to comply with the instructions set forth in the Authorization Form (including, but not limited to a device such as the EpiPen Jr.). The parent(s)/guardian(s) is responsible for ensuring that all medication is properly labeled by a pharmacist and replaced prior to the expiration date.

PROCEDURES FOR EMERGENCY TREATMENT:

If a child enrolled by La Petite has severe allergies, the following steps shall be implemented:

1. Prior to the child's first day of attendance, the parent(s)/guardian(s) or their designee(s) is responsible for training selected members of the Staff, including but not limited to, the Director, Assistant Director, and child's teacher(s), on the nature of the child's allergy(ies), including (i) the events/substances that may trigger allergic reaction (e. g.. bee sting, consumption of peanuts or products containing peanuts, etc.), (ii) with respect to food allergies, limitations on the child's food consumption, (iii) symptoms of an allergic reaction, and (iv) when and how to administer treatment for an allergic reaction, including, where appropriate, the procedure for administering epinephrine through an EpiPen Jr. or similar device. In addition, all members of the Staff will be trained to recognize the nature of the allergy and symptoms listed in subsections (i), (ii) and (iii) above.

2. At least four (4) members of the La Petite Staff, including but not limited to, the Director, Assistant Director, and child's teacher(s), shall attend the training provided by the parent(s)/guardian(s)/designee(s). Upon completion of the training, the Staff shall complete and sign the Allergy Emergency Treatment Training Acknowledgment.
3. Training shall be repeated every six months, or when fifty percent (50%) of the La Petite Staff has turned over, whichever occurs first. If the individual serving as the Director, Assistant Director, and/or child's teacher(s), is replaced, his or her replacement shall immediately be trained by the parent(s)/guardian(s)/designee(s).
4. At least one (1) trained Staff member shall be present at all times the child is present at the school and shall accompany the child on all field trips.
5. Medication kept at the School shall be stored in a secure area accessible only by trained Staff. During School field trips a trained member of the Staff shall be designated to carry any required medication.
6. Warning signs alerting Staff of the child's particular allergy shall be posted in the kitchen, the child's classroom, and may be listed on other school documentation.

STEPS FOR TREATING AN ALLERGIC REACTION:

All allergic reactions should be treated in accordance with the instructions provided by the child's physician in the Authorization Form. In the event of any conflict between this policy document and the instructions set forth in the Authorization Form, the instructions in the Authorization Form must be followed. If the child is exposed to or ingests the allergen, or shows one or more of the following signs and symptoms of an allergic reaction, including swelling of the lips and face, hives, vomiting, diarrhea, shortness of breath, or difficulty breathing, follow these steps:

1. A designated Staff member calls the area's emergency personnel number (e.g. "911"), unless stated otherwise in the Authorization Form, and the parent(s)/guardian(s) immediately.
2. A trained Staff member administers medication (such as Benadryl Elixir or the EpiPen Jr.) as instructed in the Authorization Form. Unless otherwise indicated on the Authorization Form, these medications should be administered immediately. If a child is exposed to (e.g., bee sting) or ingests (e.g., peanuts) a known allergen, do not wait to administer medication until the child shows the signs of an allergic reaction, unless the Authorization Form states otherwise. If a child exhibits symptoms of an allergic reaction, do not wait to see whether his or her symptoms worsen. Note: the area's emergency personnel number (e.g. "911") must be called in addition to giving medication such as the EpiPen Jr. because the medication only works for approximately 15 minutes.
3. Under no circumstances may any La Petite Staff member administer any medication, including the EpiPen Jr., until (i) the child has been identified as subject to anaphylactic reaction, (ii) all the required information and forms have been provided by parent(s)/guardian(s), and (iii) the initial training has been completed. Staff should contact the Inclusion Team if you have any questions.
4. If epinephrine is prescribed, only pre-measured doses of epinephrine (such as contained in the EpiPen Jr.) may be given by La Petite Staff.
